

Introducing **Practilite 604** is the most advanced of the Practilite compact LED Fresnel family. Its ideally suited for permanent and semi-permanent installations where compact DMX enabled Fresnel lights can be utilized.

DMX and Smart Sync Connectivity

Practilite 604 is the most advanced of the Practilite compact LED Fresnel family. Its ideally suited for permanent and semi-permanent installations where compact DMX enabled Fresnel lights can be utilized. Places like small and home studios for v-logging or even for high quality gallery lighting. Smart Sync Connectivity enables synchronous control from one Master fixture.

The Practilite 604 comes with an app for smartphones and is Bluetooth capable: the remote function is cost-effective and especially useful for single-person shooters or small crews when a gaffer is not available. Also, it makes documentary shooting and field interviews more efficient as managing the lighting setup and adjustments can now be done with greater ease.

Greater light range

The classic fresnel lens provides greater light range than conventional LED fixtures. This enables wider shot angles and precise light-shaping without losing the LED output power/throw which is typically the case with barndoor-controlled fixtures. This compact and powerful light is designed to gather and throw as much light as possible through its 3.2" 80mm fresnel lens, providing you with unprecedented size to light output ratio.

Variable color temperature

In today "tungsten" anymore. Be it CFL, LED, halogen and other types of lighting, our Practilite 604 is just the right tool to adapt to these various lighting conditions.

● SPECIFICATIONS:

- **Light Source:** Dual Phosphor COB LED
- **Color Range:** 3000 to 6000K
- **CRI:** ≤96
- **Display:** OLED screen
- **Operating Voltage:** 100-240 VAC, 50/60 Hz 12-28 VDC
- **Power Consumption (max):** 85W (90 W)
- **Connectivity:** DMX-512
- **Dimming:** 5-100% (0-100% via DMX)
- **Lens:** 3.2" (80 mm), Borosilicate glass Fresnel

- **Beam Angle:** 15-75°
- **Beam Control:** Variable
- **Cooling:** Hybrid
- **Control:**
- Local

Remotely via Practilite Remote Control App [iOS 8.0+](#) and [Android](#)

- **Mount:** 5/8" (Baby)
- **Barndoors:** Included
- **Dimensions:** 4.0 x 7.0 x 6.0" (10 x 17 x 15 cm)
- **Weight:** 2.9lbs (1.3kg)

Practilite 604 DMX Enabled LED Fresnel

The lights passed the LED refresh rate test with flying colors. No striping was detectable.
